# DecisionsFirst Modeler Starter Services

DecisionsFirst Modeler is a collaborative decision modeling solution that makes it easy to model decisions as part of your requirements process. It is based on the Decision Model and Notation (DMN) standard to future proof your decision models and skills.

Decision modeling with DecisionsFirst Modeler is the proven approach to requirements gathering that meet the needs of today's organizations to be more flexible, analytical and customer driven:

▸ Business processes are less complex improving flexibility and agility.

▸ Business rules are structured, iterative and business-focused.

▸ Predictive analytics are well framed and linked to business results.

▸ Dashboards extend to include actions and recommendations.

Training

We offer online training in Decision Management and Decision Modeling with DMN every quarter. We can provide these same, proven classes as private online or on-site training. Classes include real-world examples, live exercises with DecisionsFirst Modeler and plenty of opportunity for interaction, questions and peer engagement:

▸ Introduction to Decision Management

▸ Decision Modeling with DMN

▸ Decision Table Modeling with DMN

"[The training] does a good job of explaining complex concepts in an easy and clear manner. I can relate and apply the concepts directly to my job."

DECISION MANAGEMENT SOLUTIONS

Starter Services

We offer three starter services:

▶ Model Building Service
A small team combines top-down elicitation with bottoms-up analysis of existing business rules to build an initial decision model integrated with the existing business rules implementation environment.

▶ Decision Discovery Workshop
The team spends 2-5 days onsite engaging with business, IT and other professionals to build a decision model supported by initial business rules, reducing the need for wasteful iteration and clarifying the ROI.

▶ Knowledge Transfer
A set of established best practices and techniques, supported by a repository, are used to help your team build a decision model existing and make them quickly productive and self-sufficient.

These starter services help you get started quickly for a fixed price. Customers can mix and match these services, custom consultant, training and software for the decision modeling quick start they need.
